Ed Aweeka Named To Utility Board

At their regular meeting Tuesday night, the board of directors of the Truckee Public Utility District appointed Edward Aweeka, owner of the Truckee Hotel as a fifth member of the board.

Aweeka replaces Dr. Ben R. King who resigned several months ago. The new director was appointed to serve until the next special election in May of next year. Aweeka has been active in civic and fraternal affairs.

Other members of the board include Cecil Edmunds, James McIver, Dan Horman and Pat Greenhouse.

In other action, the board is studying a report from George S. Erskine of Menlo Park who has been employed to give a report on a proposed substation which, if approved will give the district an opportunity to expand and develop. The cost of improvement will approximate $100,000, according to Manager Francis Longo.

Erskine is also bringing up to date his study of transmission facilities in the district, started in 1960 and which is expected to provide more adequate service throughout the district.

Valley Council In Favor Of Bridge For Emerald Bay

The executive comimttee of the Sacramento Valley Council of the State Chamber of Commerce last Wednesday voted unanimously to endorse a low level bridge across Emerald Bay at Lake Tahoe.

The endorsement specifically asked for an immediate decision on the low level route on Highway 89 to bridge Emerald Bay.

John O. Bronson, making the case for the low level route, pointed out that the State Chamber of Commerce highway committee on June 14 unanimously endorsed a resolution from the El Dorado Chamber of Commerce asking for such a route.

The resolution said in part that "with the rapidly growing population in Lake Tahoe area the need for an all-year highway linking the transcontinental Highways 50 and 40 is now an immediate and vital necessity."

Bronson said that in 1958 the state engineer declared:

"On the basis of engineering criteria the low level alternate is unquestionably of superior economic consideration. Construction cost and highway user savings also favor this route. The low level route also permits ultimate expansion to four-lane expressway standards. On the other hand, a four-lane development along the high level route at Emerald Bay is impractical."

The 30 members of the organization voted to request the board of supervisors to rename the Donner access road from the freeway to the east end of the lake Donner Lake Scenic Drive. They also are requesting that the chamber of commerce join in urging more local exhibits at the state and county fairs, showing the recreational advantages of this region.

The latter said he discovered Spellman sitting in the office with a bottle of wine. When Kingery went to call officers, Spellman dropped a bag containing valuable survey equipment into a waste basket.

Drawers had been ransacked. Investigation revealed the door had been left unlocked and Spellman said he entered thinking the building belonged to a friend whom he had not seen for three years.

The two home runs were the big blows in the explosive bottom of the seventh inning which saw the winners score eight runs after trailing 9-3 going into the frame. Mike Robinson socked a double to left to tally the other two runs.

Tahoe Regatta At Chambers Lodge Is Sunday Event

CHAMBERS—A record crowd is expected at this year's Tahoe Yacht Club Regatta, highlight of the summer boating season at Lake Tahoe. The colorful event will be held on Sunday, August 19, at the Chambers Lodge Course.

Devoted to the amateur racing of pleasure runabouts, the regatta is one of the few events of its kind in the world. With the exception of the war years, it has been held annually since 1925.

Chairman of the 1962 regatta is L. Howard Good, with Dan Hauserman serving as vice chairman.

This year's schedule, according to Good, includes 15 races, most of which are limited to club members. The first race, a two-lap event for Class B hydroplanes, begins at 8:30 a. m. The main inboard speed boat events will get under way at at 9:30, with competition continuing until early afternoon.

Last year the club initiated a sailing event as a climax to the day's racing schedule. It will be repeated this year, according to Mr. Good, and will be followed by the traditional awarding of trophies.

Several perpetual trophies have been established over the years by prominent families in the Lake Tahoe area. The Commodore's Cup is the oldest trophy and was awarded by Commodore Charles E. Townsend.

The club's present commodore is Stanley W. Good, Jr. Members of the 1962 regatta committee, in addition to Good and Dan Hauserman, are J. Philip Murphy, Jay Murphy, Noel Porter, Valerie Good, Ralph Peer II, Edward Wallis, R. Randolph Walker, Robert Elberg, Michael A. Browne, Richard P. Irvine, Edwards S. Irvine, Jr., Donald H. Rhoades, Lachlan M. Richards, Marin C. Matosich and Kjell Rustad.

West Lake Road Hearing Set For Meeks Sept. 20th

PLACERVILLE — District Highway Engineer Alan S. Hart of Marysville, said a public hearing on the proposed relocation of State Routes 89 and 28 between the Bliss State Park and Tahoe City, Lake Tahoe, will be held at 10 a. m., September 20 at Meeks Bay.

The proposed improvement is on the west side of Lake Tahoe, in El Dorado and Placer Counties. Hart met Monday with the El Dorado Board of Supervisors and with the Placer Supervisors Tuesday.

Hart said there are no funds available at this time for construction.

He said the division of highways is ready at this time to present its findings and pertinent data developed in a study at the 15.8 mile section, looking to its establishment as a high class scenic parkway.

Only one basic line was considered feasible over much of the length because of the lake on one side and the mountains on the other. Hart said county planners and subdividers have set up tentative right of way reservations through subdivisions.

The district engineer said studied alignments offer eight possible combinations of alternates ranging from 14.83 to 15.01 miles long, with costs varying from $19 to $20 million.

Stice Gives Region Boost On Travels

Truckee has some ardent boosters but probably none more enthusiastic than Earl Stice.

Each year at the end of July, Stice, accompanied by Mrs. Stice takes his vacation by attending a reunion of his old army outfit, the 2nd Military Railroad Service Headquarters Company, this year convening at Columbus, Ohio.

In past years the meetings have been held in New Orleans, St. Louis and Chicago and before leaving to meet his old friends Stice arms himself with literature of this area which he places in the leading hotel display racks and passes out to his friends. In every instance, Stice reports, the Truckee-Donner folders are more than welcomed and are selected far more frequently than others from the displays, indicating the interest people have in this picturesque and historic region.

On his recent visit in Ohio, Stice decided it was time the reunion should be held in the west while he was unable to get the group to come directly to Truckee, he did manage to get a favorable vote on Reno with the understanding that a tour of the Truckee, North Tahoe and Squaw Valley area be included on the program.

Stice is a firm believer in picturesque names for centers of population and his home-town to his former comrades in the service is Truckee on the River, which might well be considered as a permanent designation for this busy community.

DONNER TEACHER IS MOTHER OF GIRL

SODA SPRINGS — The welcome news of the arrival, July 30 of Mary Heather came this week from New Baltimore, Michigan from her parents Sgt. and Mrs. Thomas Coughlin. The bouncing baby admitted a first weight of 9 pounds, 2 ounces. She was baptized in the Congregational Church August 12, followed by a reception in the edifice, where Mary first met the congregation.

The proud parents are looking forward to residence at Chamberlands in 1968 when the new papa retires from the U. S. Air Force. Mother Coughlin is well known in this region as the former Donna Power, a teacher and also correspondent for the Sierra Sun.

BEAR CHASED FROM TUNNEL BY TRAIN

NORDEN — As a freight train waited on side track for the Streamliner to pass, the engineer, C. P. Elster, saw a big brown bear walk into the west end of Tunnel 41. He called the telegraph operator, E. K. Stice, at Norden and reported the bear had walked into the tunnel. Stice called Engineer E. Wood on Streamliner Train No. 102 by radio and told him to watch out for a bear in the tunnel.

Engineer Wood said he overtook the bear about one-half mile in the tunnel, which is two miles long, and after slowing down to give the bear a running chance, began tooting the whistle. The beak took off ahead of the engine, and each time the bear slowed down the engineer would toot the whistle and the bear would speed up.

Finally after running 1½ miles ahead of the engine, he came to the east end of the tunnel where he immediately jumped off the track. The bear appeared to be all out of breath, and he gave the engineer an angry glance as the engine went past him.

Incidentally, the bear ended up right where a skiier was rescued by a Southern Pacific engine during a blizzard last winter.

The applicant proposed a schedule of annual general metered service rates and also an annual rate of $60 per residence and a monthly fire hydrant rate of $2.

BAY MAN TRAINS TO SWIM LAKE TAHOE

A 28-year-old San Francisco coffee house employe last week announced he would begin training in Reno for a mid-September assault on Lake Tahoe.

Toufie Blake, a native of Lebanon and conqueror of the English Channel twice in one week, plans to swim from the north shore of Lake Tahoe to the south shore and back, non-stop. He said he hopes to break all existing records in the process.

Only two persons have ever swam the length of the lake; the most recent was 16-year-old Erline Christopherson, of Lodi, Calif., who completed the feat two weeks ago.

WHAT'S DOING

J. C. Domergue, your Telephone Manager in Tahoe City

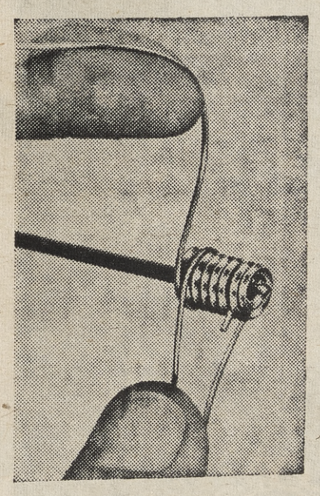
Tahoe City is host to Telephone Company Service Representative School.

On July 10th Mary Beth Endicott our Lake Tahoe Supervisor started training four women to become Service Representatives for the Telephone Company. The course involves six weeks of extensive training. Graduation day will be August 17th.

Two of the students, Pat Dougherty and Janet Likes will work in the Tahoe City Business Office. Annett Georgegan will go to South Tahoe and Janis Bruck to Auburn.

We welcome them to our Company.

* * *



It may not look like much, but this newly-developed little gadget—called a Coil Spring Connector—is going to save a lot of time in putting telephone service in new buildings. It's a way telephone people have found to connect and splice plastic-covered wire without stripping off the insulation. They just loop the wire around the coil and pull. The wire snaps in, the coil cuts through the insulation, and contact is made.

Makes a better contact, too, than the old hand-stripping way, and saves a lot of time. It's a saving that helps keep the cost of your telephone service down at the same time we improve its quality and usefulness.

* * * * *

Most places you go, chances are you won't be very far from a public telephone. For your convenience, telephone people try to locate them where you're most apt to want and need them.

In many places you'll find drive-up booths that let you telephone without getting out of your car. You may also see some of the new walk-up booths in outdoor locations where a phone would be handy but there's not enough space for a conventional booth.

All these public telephones are another way we try to make your phone service most convenient for you, wherever you may be.

COUNTY FAIR WILL START AUGUST 23

The Nevada County Fair at Grass Valley, opening on August 23 through the 26th will offer a full program of entertainment for fairgoers. On Friday and Saturday nights, western championship rodeo will be seen at popular prices starting at 8 o'clock and at 8:30 on Friday, Don Monteer of Sparks will call the square dances with Chuck Raley of southern California calling the squares on Saturday night.

At 9 a. m. Saturday, entries from all over the state are expected in the sanction dog show.

Throughout the day and almost continuously free entertainment around the grounds includes Len Gray's Wild Animal Circus, the Largos with the Ultrasonic Harmonicas, Dick Cross the organist, Bozo the Clown and Harry Richards the organ grinder and his monkey.

Fairgoers find this fair exceptionally attractive because of its unique setting amongst over 2,200 tall, pine trees, that shade the green grass throughout the grounds which are planted with thousand of gaily colored flowers.

"California's Most Beautiful Fairgrounds — Landscaped by Nature" has become well known throughout California and the west.

Pilarcitos Lake,, a part of the San Francisco water department properties in San Mateo County, has a capacity of 1.01 billion gallons.

DRIVERS ARE WARNED OF HIGHWAY SIGNS

Highway signs which warn of potential danger areas ahead aren't the only ones which affect your driving safety.

"Sometimes the most important signs are the barely perceptible changes in habit and attitude which convert careful driving to careless driving," California Highway Patrol Commissioner Bradford M. Crittenden said.

"A driver with an excellent record—no violations, no accidents—over a period of years is involved in a serious crash Why? Perhaps over-confidence in his own ability led to reduced caution. Perhaps he gradually developed careless habits he was unaware of. Or perhaps his reaction time had slowed, or his vision had become less acute.

"Every driver is subject to change, both in attitudes and physical capabilities. Only frank self-appraisal will disclose if those changes have lessened your ability to drive," the commissioner said.

"The driver who frequently reviews and corrects his own actions has the best chance of maintaining a good safety record throughout his motoring career."

BROWN DIFFERS WITH JORDAN ON QUESTION

SACRAMENTO—(CNS) — When politicians get together, the subject they discuss, naturally, is politics.

This happened when Governor Edmund G. Brown and Secretary Frank M. Jordan, the sole remaining Republican constitutional officer, posed for pictures in a "get out the vote" campaign.

After agreeing that many citizens are shirking their duties by staying away from the polls, Democrat Brown and Republican Jordan disagreed on whether California should abolish its anti-cross-filing law.

Brown asked Jordan if he thought California politics were more partisan now than 20 years ago. Jordan said he didn't.

Both agreed there is a greater tendency for conservative Democrats to cross party lines than Republicans.

Jordan said he feels that abolishing cross-filing had a stifling effect on this inclination, and many candidates for lesser office have been virtually shut out because of a Democratic sweep.

Jordan said he would favor heartily a law making all state offices non-partisan, except perhaps, governor and lieutenant governor.

What's partisan about the legislature, schools and other state issues?" Jordan asked the governor.

"That's where I disagree with you," Brown retorted, declaring there must be some party responsibility in state politics.

Jordan said cross-filing is just as fair to the Democrats as to anyone else, and then, the pictures having been taken, the meeting broke up.

Ebbetts Pass in Alpine County was named in 1854 for John Ebbetts who crossed the pass with a muletrain in April, 1851.

DIVOT DIGGERS

By BETTY KIELHOFER

I've been waiting all year to witness John Moretta's first game of golf and doggone if he didn't sneak out there without telling me. He was delighted to run in my office and report that he had put one over on me. Here I had planned all along to take pictures from behind the nearest trees and hold a big showing in the 'town hall. He says he just loves the game as does his playing partner, Harry Eaton, who also is a beginner . . . Charlie Cozzi was true to his word and showed them around the course. Congratulations, John! You finally did it. Now when are you gonna' get Parker out there?

We took a quick trip Sunday to the 'big city' to witness the Giants trounce the Dodgers (along with the Roses' and Ellis's) so didn't get to see what went on at the course. Hope all of you that wanted to qualify for the championships coming up 'did' so as it is too late now. The pairing will be made soon and by next weekend, the tournament should be underway. I'd like to remind the players once again that each play-off will be given one week to complete their match. If they can't get together in that length of time, one of them will have to forfeit to the other. This is to prevent the matches from going into October. If there is any question as to whom shall forfeit, call on the help of John Firpo or Bob Leamon for the decision. SUNDAY, AUGUST 19 . . . a date for your calendar. Please recall that this is our country club's 2nd annual open. Everyone is invited . . . in fact, urged, to participate. We will have food and prizes.

Bob Moore said all the information will be at the clubhouse on both this tournament and pairings for the championship so run right up and check them out . . . Dave Rose is here visiting with Zeph and has been playing our course frequently. He said he was truly amazed at the improvement up there over last year . . . (in the course, he said, not his score).

Alex Stewart told me a short while back that the play on the course was improving all the time. Many days showed a registration of 75 and quite a few ran up to 100 people. It's becoming more and more popular with the tourists. Isn't this good news?

Lew and Elsie Baysinger are vacationing at Tahoe with Joe and Sally Speed again this summer Sally had her very first game of golf on our course last week. Said she had an 85 or something but her consolation was that if you hit the ball twice as many times as the others, ' you must get your money's worth.' One way to look at it, huh?
